LinkedIn: linkedin.com/in/priya-iyer-devops

Portfolio: priyaiyer.dev

Objective:

To join a forward-thinking team as a DevOps Engineer and apply my passion for automation, scripting, and cloud technologies to streamline software development and delivery processes.

Skills:

- Docker, Kubernetes
- Jenkins, GitHub Actions
- AWS (IAM, EC2, EKS, CloudFormation)
- Bash, Python Scripting
- Terraform, Ansible
- Monitoring: Datadog, CloudWatch

Projects:

****1. Cloud-Native Deployment with Kubernetes****

Developed and deployed a containerized app on AWS EKS with auto-scaling, logging, and monitoring. Integrated Helm for release management.

****2. Automated Infrastructure on AWS****

Designed infrastructure templates with Terraform. Automated environment setup for staging and production.

Experience:

****DevOps Trainee** – DevLaunchPad, Chennai**

Aug 2023 – Jan 2024

- Worked on GitOps model using ArgoCD.
- Configured multi-stage CI/CD pipelines.

- Managed secrets and permissions using AWS IAM & SSM.

Certifications:

- Kubernetes for Developers – Udacity
- AWS Cloud Practitioner Essentials
- DevOps Essentials – Coursera

Education:

B.E. in Information Technology

SRM Institute of Science and Technology | 2021–2025
